

Extra Curricular.web

The non-academic profiling of a student is well catered for by the **TASS.web** *Extra Curricular* module.

The database structure provides the flexibility to allow the recording of different achievements based on the activity type. For a student participating in football you may record 'team', 'position' and 'pocket' or 'colours'. However, for a student participating in Duke of Edinburgh you may record 'award level', 'service', 'adventurous journey' and 'physical recreation'.

record achievement

Comments can also be recorded to indicate a more detailed description of the student's performance in an activity.

Extra Curricular				
6 records found.				
Year	Term	Code	Activity	Level
2006	2	016	Duke of Edinburgh Award Scheme	Silver Medal
2006	1	016	Duke of Edinburgh Award Scheme	

The TASS browser based modules such as *Teacher Kiosk*, *Parent Lounge* and *Student Café* access the data held in this module. When combined with information from the *Student Records*, *Student Reports* and *Attendance* modules, key users are provided holistic student profile.

complete record

Year	Term	Activity Code	Activity
2006	1	003	Prefect
2006	1	021	Student Council
2005	1	014	Debating
2005	1	018	Rugby
2005	1	011	Swimming
2004	2	015	Instrumental Musi
2004	1	010	Athletics
2004	1	013	Cycling
2004	1	014	Debating

Extra Curricular information can be included with the school reporting system either in the form of a separate achievement and participation statement or combined with the student academic reports.

Teams or activity lists can be entered into the database directly by teachers using *Teacher Kiosk*. This option includes a student picker to help teachers 'fast track' the creation of teams or activities based on individual students, pastoral care or tutor groups, year levels, house, subject or previous activity.
